

Council Plans Big Dance February 10th

**Hi-Hatters' Orchestra Will
Play For First Lit Of '39;
Prizes, etc.; Tickets 50c**

"The February Forecast" is the name chosen for the first school dance of 1939. In accordance with the new Council's policy of better dances, the popular "Hi Hatters" orchestra has been engaged. Smart programs have been planned. Each dance will have a name, e.g., "Tornado Twist," "Boy Meets Gale" and the whole theme of the dance will be along weather lines.

Shirley Plummer's social committee, composed of several council representatives, is going to a lot of work to make this a successful dance. There will be special prize dances, novelty numbers and all the trimmings for a real swell time. The "Hi Hatters" need no publicity. They are known to the students as a really fine band. Arrangements have been made to put the floor of the "Cyclone Cel-

CHANGE IN BUSINESS STAFF OF THE MIRROR

The Mirror wishes to welcome two new members to the Mirror staff. Herb Agnew will take over the position of Business Manager, succeeding Stuart Munro, and Ronnie Goodison will take over the Circulation Management left vacant by the resignation of Gerry Spencer. Munro and Spencer have been forced to resign due to pressure of other activities and the Mirror staff wishes to thank them for their good work during the past term.

EMPLOYMENT MANAGER OF H. B. COMPANY SPEAKS TO COMMERCIAL STUDENTS

**Outlines Educational and Personal Qualifications Expected of
Students Applying For Positions On the Retail Staff of
Company—"Education" Regarded As the Most Im-
portant Factor When Applications Considered**

On Thursday, Jan. 19th, the Commercial section of Western Canada High School had the pleasure of listening to Mr. Boyle speak on the subject of "What the Hudson's Bay Company Expects of Its Employees."

Our speaker, whom, it might be noted, is assistant superintendent

of the large store mentioned, started off by means of a few illustrations that showed the types of applicants not wanted in any business. One was a slovelly dressed college boy and another was an over-dressed flapper. This formed a very good introduction, as it was quite amusing and in-

(Continued on Page Four)

ACATEC SUBSCRIPTIONS IMPROVING

The business managers of the Acatec recorded a slight improvement in subscriptions in the last week. However, they stated it is still not enough. The students wishing to pay their deposit will please do so as soon as possible.

Other work on the book has been in full production. This year's publication should be the best we have had so far judging by the staff enthusiasm and progress to date. Jack Stevens, who is handling the photography, reports excellent co-operation by the students in getting their pictures taken, and expects to complete

the "Art Gallery" very shortly.

Remember to subscribe; boost your class average and at the same time assure yourself of a copy of the 1938-39 Acatec.

DRAMATICS CLUB PLAY MARCH 2nd AND 3rd

The dates for "Stage Door," this year's play by the Dramatics Club, will be March 2nd and 3rd, it was announced this week. This will be the first modern play attempted by Western's aspiring Thespians, heartbreak, suffering and rewards found on the "Great White Way." Watch for more news in the Mirror and on the bulletin boards.

THE WEATHER AND EDUCATION

MY, MY, such a funny subject to be talking about, isn't it? But it seems that this very nice spring weather has its effect in any number of ways. Oh, yes, it has, and how! For instance, we see a lot of guys and gals just loafing around doing nothing. You would almost think it was coming the end of the term, or something. But listen, my fellow students—wake up and look around. It's only January, after all, and there's still plenty to be done yet.

Don't you think it would be a good idea to get your head out of the clouds and come down to earth? Because, as you know, "no education, no future," and after all, students, that's what you're aiming

at—the future. Now comes that dreaded subject, homework. Sounds bad, doesn't it, but after all it's got to be done, so let's do it. Yes, I know what you're going to say, dancing, skating, and good times in general are so much nicer than sitting around home doing your A, B, C's. I have heard Rome wasn't built in a day, and homework does help to build a solid foundation for the future.

By this time I imagine you are about ready to put me out of my misery. So sorry to have wasted your time. But it was an effort, anyway, and that's a little satisfaction in itself. Here's to you all in hopes that you will see the light and take advantage of it. Let me remind you again that we are here for a purpose, so let's do our best in the present and be assured of a happier and more prosperous future.

ACATEC SUBSCRIPTIONS

HOW many times do we have to tell you to subscribe for your Acatec? We mean right now! If you don't subscribe now, then when you want to buy one in May you won't be able to—they will all be sold. The idea in subscribing now is so that the Editor may know how many to get printed. And no more will be printed, because he can't take a chance on losing money on the book. There is another idea, too. In May and June there are a lot of other expenses a student has to cover, and by paying part of your subscription now it lightens the expense for you. Can't you see how much better off you are by subscribing now. Every one of your pictures will be in that book, so don't you want a copy to show to your grandchildren? You'll also want to look at that book in a few years and try and place all of your old friends who have gone

(Continued on back page)

Western Overpowers Saint Mary's 8-1

Senior Squad Takes First Place In Inter-Scholastic Hockey League

Displaying a high-powered scoring attack which produced 8 goals, Western Seniors took over undisputed possession of first place in the Interscholastic Hockey league by defeating St. Mary's 8-1 at the Arena last Tuesday, Jan. 17.

The well-coached Western squad boasted many stars, and scoring was evenly divided amongst the players. Cosgrave and Neal played brilliantly on defence and continually broke up dangerous St. Mary's attacks.

Western scored four goals in the first period to dominate play. Steedman from Poffenroth, Gould, Cohen from Neal and Cosgrave from Neal, were the scorers. Cosgrave with two and Gourlay got the penalties.

Bobby Steedman got the only marker in the sandwich session, while the lone penalty went to Sparrow of the Saints.

Early in the third period St. Mary's got their lone goal on a Zaluski to Gourlay play. Gould and Cohen added two more, while Corry, flashy left winger, closed the scoring with a pretty goal, Steedman getting the assist.

Western Line-up—Burrell, Neal, Cosgrave, Steedman, Corry, Norbury, Baker, Steel, Stewart, Gould, Cohen, Poffenroth.

Lila Logan: I hear that old car of yours has no speedometer.

Gordon Scott: That's all right. At ten miles an hour the windshield rattles; at fifteen the headlights; at twenty the bumper, and at twenty-five I rattle.

WHO'S WHO IN WESTERN SPORT

Eleven years of coaching high school hockey has stamped Mr. Foster as one of the outstanding

MR. G. W. FOSTER

mentors in school hockey. Although the winter pastime is his favorite game, he did play rugby for Crescent Heights in the days when men were men and you weren't worth your salt until you could play 60 minutes with a broken leg and a headache.

While at Bassano, Mr. Foster dabbled with baseball (the real game) and played centre on the hockey team. In 1924 he came near to being on a provincial championship hockey team, but the Bassano club was beaten by Okotoks for the intermediate title in the finals.

Mr. Foster thinks that high school hockey has improved since games were transferred to the Arena. The best high school hockey team he ever saw was his own 1937-38 club which won the school title. When asked what he thought the chances were of his Senior team holding the championship, he said:

"We are going to win this year."

Let's hope he is right.

Juniors Impress In Scoring 7-0 Shutout Over Crescent Team

It was a starry group of Western Juniors, led by Bill Gostick, that won a well-earned shutout over Crescents 7-0 at the Arena on Saturday, Jan. 14. The Hilltop passing attack looked very dangerous in centre ice, but their force was easily spent on the sturdy defence of Smith, Greenberg and Anderson. Mr. Parry presented a well-coached team that can score lots of goals. Although the Western boys don't look flashy, they get results, and that is what counts.

Bill Gostick led Western scorers with 3 goals, on two of which Benstead got assists. Johnny Gordon got 2 more, while the remaining 2 were scored by Bill Cook and Les Armour.

In the first period Crescents' passing looked superior to that of the Western team, but Cook got the first goal of the game from Smith. Play was very fast and keen.

Johnny Gordon scored a beautiful goal from the side of the net to make it 2-0 for Western at the end of the second period.

'Twas a sad third frame for the Crescents as Western went on the rampage and scored five goals. The scorers were: Gostick from Benstead, Armour from Cook, Gostick from Benstead, Gordon unassisted, and Gostick finished the scoring by batting one in from a scramble.

Western Line-up — Lawrence Smith, Greenberg, Anderson, Gordon, Gostick, Benstead, Armour, Caddick, Cook, Jefferies and Aitchison.

Employment Manager of H.B. Company Speaks to Commercial Students

(Continued from Page One)

stantly attracted everyone's attention.

Mr. Boyle introduced his first point by means of a card, "Education." Mr. Boyle stressed the fact that Grade XI or XII students are desired. Of course, the more education one has the greater are his chances for promotion.

"Ability" was another point brought out. Much ability is needed in the Retailing Business. The more of this quality one has, the greater are his chances for promotion.

The speaker then mentioned the importance of neatness and personality. When one goes to apply for a position, these points first strike his eye. In this world of ours, where jobs are so scarce, such a factor, in most cases, determines the chances of one obtaining a job.

Health was another point discussed by Mr. Boyle. In such an institution as the Hudson's Bay Company, the importance of outdoor exercise was greatly stressed. Even though it may have up-to-date air-conditioning and lighting, one must be as much out-of-doors as he can. An excellent salesman does not keep his job if he is absent often because of ill health. It costs the company too much.

The next point brought up was honesty. This, of course, was not stressed to a very high degree, since the average Grade XI or XII student can be trusted, and of course would get nowhere if he were dishonest.

Factors mentioned by Mr. Boyle as necessary in the Retailing Business were Salesmanship and Cooperation. To make any business profitable, these factors play a very important part.

Following this talk a period of 15 minutes was allowed for questions. One of them was, "Just what was regarded as the most important factor by business employers?" The speaker answered that "Education was."

This concluded the first in a series of talks to be given regularly to the Commercial Students by prominent business men.

MOUNT ROYAL COLLEGE DEFEATS WESTERN HOOPERS

In an exhibition basketball game played in the local auditorium last Thursday, Mount Royal College defeated Western Canada High, 53-17. The College boys displayed too much class for their opponents and their smooth passing plays completely baffled the Western team, as they scored baskets almost at will. Bill Allan and Al Luet were the only Western players who could penetrate the Mount Royal defence.

There were only four House League basketball games played due to the Mount Royal game. The results were:

XI-B, 10; XI-A, 9.
XI-M, 16; XI-L, 10.
XI-C, 15; XI-K, 7.
X-M, 8; X-F, 8.

"Did you see me get aboard this car?" asked Roland Brown.

"I did."

"Did you ever see me before?"

"No."

"Ever hear anyone call my name?"

"No."

"Ever hear anyone speak about me?"

"Certainly not."

"Then how did you know it was me?"

COMMERCIAL STUDENTS SECURE POSITIONS

This is the first year that we have had the Commercial Course at our school, and it is only recently that we have noticed what great help, training and recommendation the school gives us.

There have been a number of students leaving Commercial to take up positions in offices and on inquiry we found that Doris Rhodes and Evalyn Boardman of XII-H, after spending two years in Commercial, have succeeded in securing positions in the Telephone company. Shirley Nixon, of XII-H, spent one year in Commercial, and is now working for the Victor Fox Foods.

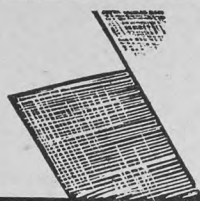

Victor Watson, of XII-H, spent two years in Commercial and recently was employed by George McLeod.

We are very proud of our Commercial Course offered by the school, and we are sure that the course will be of unlimited assistance to these students.

OMEGA SIGMA TAU PLANS EASTER PARADE

This may be a little soon yet for making arrangements for April 10th, but this should be the prize event of the year at Penley's. The fraternity boys are racking their minds for as many new and novel ideas to put this affair over with a "big bang."

The raffle which has been planned of a woman's Beauty Kit worth \$10, or a Packard Roto-Shaver for the boy or girl who wins, is well worth the investment of 10 cents a ticket. The net proceeds will be spent for a trophy at the school, so be on the lookout for this wonderful opportunity to win one of the lovely prizes to be given to the winner, a boy or a girl. Who will it be?

SOCIAL SLANT

BILL ELLISON, WELL KNOWN WESTERNITE, LEAVES FOR REGINA

A well known and popular figure of Western halls for the past three years is about to leave for Regina. Bill Ellison has spent three of his four years in high school in these very halls. Attending grade X in 1936, he was in class X-H and has since come up through XI-A and XII-C. He is one of the most remarkable exponents of "jitterbug stuff" in Western, and a dance rarely takes place without his presence. We all wish him good luck and happiness as he moves from this, his native city, and may he make many new friends as we here will have to do to fill the vacancy that he has left in our midst.

CHEMISTRY CLUB MEMBERS DABBLE IN INK

Not very long ago the Chemistry Club made ink from Methylene Blue, Ferrous Sulphate, Tannic Acid. Some of the experiments proved very successful. Previous to this a business meeting was held. One of the items of interest discussed was the possibility of a social for Chemistry Club members. This should prove fun for everyone, since there is such a large group.

GOLDEN RULE

"Your doctor's out here with a flat tire."

"Diagnose the case as flatulency of the perimeter and charge him accordingly," ordered the garage man. "That's the way he does."

OMEGA CHI DELTA TO SPONSOR DANCE, JAN. 27th

Miss Betty Clendening was entertained by the members of the Omega Chi Delta at a luncheon held at the Tea Kettle Inn before she left for Edmonton University Hospital, where she is in training.

The "Radio Revue of 1939" is the sorority's first dance. Every member is working hard to make it one that will long be remembered. Final arrangements were completed on Monday, Jan. 16th, at a meeting in the home of Miss Kay Snell.

Get your tickets early and let's see you all at Penley's on Jan. 27th. Don't forget—it's the "Radio Revue of 1939."

CAMERA BUGS BUSY ON ACATEC PICTURES

Perhaps you have noticed several candid camera "Tiends" around the school, industrially taking "shots" of students, teachers and buildings, etc. Everyone with a camera is invited to do the same. The better pictures will be used in the Acatec. And for every snap that is printed, the Acatec will pay the donor a small sum for expenses. You can't lose! So dust off the camera and take your pictures now while there is still time! We'll be seeing you—in the Acatec.

Aha!

Dealer: "Want any fresh eggs today?"

Grocer:—"No; I bought enough fresh eggs yesterday to last a month."

SIGMA ALPHA TAU ELECTS NEW OFFICERS

The Sigma Alpha Tau sorority opened the new year with their first meeting Jan. 11th at the home of Pearl Stewart. The election of new officers took place as follows: President, Pearl Stewart; vice-president, Helen MacGregor; sec.-treas., Phyllis Doran; press reporter, Jean Hendry.

Other members of the sorority present were: Peggy Harrison, Marjorie Clendenan, Helen Sinclair, Margaret Pierce, Mary Pierce and Peggy MacLean.

The sorority started the new year with a good beginning and is planning to have a great year with a number of social and other activities. So keep your eyes open for further news of its activities.

BOYS' HI-Y CARRIES ON DISCUSSION

Andrew Snaddon introduced a topic for discussion in the Boys' Hi-Y. The subject of his topic was, "Should we go to war in Europe?" This worked up some great enthusiasm and all the boys took part. Before this Mr. Johnson outlined the basis on which the Honor Roll Shield would be given. Plans were made for an executive meeting regarding the transportation to the Winnipeg International Hi-Y Conference.

There are many activities to be managed by this Club, and all the members are eager to force them to the limit.

First of all, you get in the west exit of Penley's, with a girl, of course. For what happens next Ronnie Goodison and Joan Harvey are supplying the necessary info. to all and sundry. Anyway, when you finish (?) you tell everyone you were doing the Lambeth Walk. Maybe they were, maybe.

Stu Munro and Lil are still going strong. They were the last time we heard, anyway.

He: Golly, I'm in a fix. I stole a hunnert dolls off my employer, and now I'm going to commit suicide. Can you help me?

She: Sorry, I haven't got a gun.

There are three good reasons why you should drink. (1) It makes you feel better; (2) Good wine; (3) Any other reason you can think of.

Into the cistern Willy
Pushed his little sister Lily.
Mother's lost her darling daughter
Now we sterilize our water.

One fool to another in Koffee K.: Don't look now, but that guy going out the door has your hat and coat on.

For anyone who might be interested, the Koffee Kounter (plug) has cleaned up that lot next door where all and sundry may light off their fire-crackers in comparative peace.

"Julie" saw some dynamite,
Couldn't understand it quite,
Curiosity never pays
It rained O'Connor for 7 days.

Twinkle, twinkle, little star
How I wonder what you are.
Now do not wonder, little fan,
Because today I am a man.

Mary had a little lamb,
Its fleece was white as snow;
And everywhere that Mary went
She took a street car.

Little Miss Muffet sat on a tuffet
Eating her curds and whey;
Along came a spider
And sat down beside her
And said: "Pardon me, is this
seat taken?"

Little Jack Horner sat in a corner
Eating his Christmas pie;
He stuck in his thumb
And pulled out a plum
And said: "Aw, nuts! I thought
this was an apple!"

It seems that Kramer Ruppe is very interested in Betty Baird lately. Betty's charm gets them all.

We hear that Bill Upton has taken a nose-dive for Jackie Rutledge. Does she like you, Bill?

Little Boy Blue come blow out
some jazz,
The cats and the jitterbugs are
starting to razz.
So get out your trumpet as fast
as you can
And we'll get in the groove and
give out jam.

—By Bill Perry.

We see that Nancy Hanna is wandering around the halls very bleary-eyed of late. Maybe it's because Bill Douglas has gone away. Too bad, Nancy.

When of another you would speak
Five things observe with care:
Of whom you speak, to whom you
speak,
And how, and when, and where.
(And we practise what we preach)

YOU WALKED IN (Tune: "Love Walked In")

You walked right in
When I had homework to do;
You walked right in
And asked me to go out with you.
My heart gave way
And now I have to pay for the
homework I delayed,
The day that you walked in
from school.

—J. MORTON.

George: I wanna buy a door.
Gracie the Clerk: Trap-door,
humidor or cuspidor?

They say that a certain Betty Campbell can be seen in Gerry Spencer's dreams at night.

Shirley Plummer gets a kick out of Comp. Is it because Jack White is so near, Shirley?

It seems that a girl with a figure like a base fiddle has a hard time getting a bow.

Typewriter Salesman: Are you satisfied with your new typewriter?

Alice Maccay: Sure, but my teacher says it doesn't spell correctly.

All names of characters and places in these columns are fictitious and any relation to actual places or persons is purely coincidental.

If Bill Levy has started, or is going to start, any more law suits, the government is going to make him get his own court.

The ambulance flies at a furious rate

That registers utter defiance of fate,

As clanging through traffic quite agile and supple

It picks up one person and knocks down a couple.

—Margaret Fishback.

And then there was the fellow who painted his car green on one side and red on the other. It's very attractive, but you should hear the witnesses contradict each other.

Audrey Buchan admits openly that she's got love for Bill Spencer, and we think it works both ways.

We heard (now it wasn't told to us, we only heard) that Marg. LeC. and Johnny have thrown up the sponge. Maybe it's true—maybe.

Me: Does Bill Levy tell the truth?

He: He even has to get somebody to call his hogs. They won't believe him!

Sure, it's true.

New inventions of 1939:

Old shoe laces will break if pulled too hard.

With a paint brush, a liberal amount of red paint, one can paint things red.

Of late two of Western's swash-buckling (?) sons, namely Gord Humphries and Jim Jardine, have become thicker than two well-known thieves. It would be an unforgivable crime not to think of Gord when you think of Jim, and vice-versa, just as it would be unforgivable to think of Boston without beans, Brooklyn without the Bronx and McAfee without Fords (plug). They are planning a lengthy trip to India where they will delve into the deep mysteries of that country, and return (they tell us) with more dough than there are sea-gulls in Sweden. Gord, after a detailed study of the native tongue, is now able to say "I love you," "will you marry me?" and other such tripe. Meanwhile, Jardine is concentrating on how to get his three squares a day. Jim, by the way, is what we termed an old-timer in the game. He was born there and yelled at Indians in Turkestan for three years before leaving to enliven Calgary. Jim tells Gord to stop worrying, he'll look after him. Besides they all speak English, anyway.

It is not bliss
To miss a miss,
But gee! 'tis bliss
To miss a miss
Tho' sometimes
After you have kissed her
You wished to foo
That you had missed her.

Would the tomato blush if it saw the salad dressing?

We hate to say anything, but I think Jack Stevens and Cay Brock are starting it over again, the way the notes go around. You had better be careful, Harry.

How Fast They Can Go

Seaplane, 440.6 m.p.h.

Landplane, 409 m.p.h.

Automobile, 311.42 m.p.h.

Cicycle, 80 m.p.h.

Steam train, 127 m.p.h.

Diesel train, 124.2 m.p.h.

Motorboat, 124.8 m.p.h.

Dirigible, 83.3 m.p.h.

Ship, 42.85 knots per hour.

(And Jorgens thinks he's fast).

Another Dig At Women

Women are better than men, maybe;

They can sew a seam, they can mind a baby;

They can use their intuition instead of their brain,

But they can't fold a paper on a crowded train.

(And we can't enter the Essay On Women Contest).

The "Blond Bombshell" from St. Mary's, Jean Heathcock, seems to have made a good impression on one of our former and future students??? Bud Fillan has left the army to come back to school for no better reason.

Why Study!

The more you study, the more you know;

The more you know, the more you forget;

The more you forget, the less you know;

So why study?

The less you study, the less you know;

The less you know, the less you forget;

The less you forget, the more you know;

So why study?

McAfee's Meanderings

Fanfare of trumpets!!

Announcing something new, something different, something bigger and better than anything we have now. (No, it isn't a plug for the Acatec). Just exactly what this thing is, is a little bit hard to describe. It's an association, an organization, a club, a corporation, a fraternity, a sorority—oh, hundreds of things.

Feeling a little baffled? This Thing, for want of a better word, is composed of the cream of Western and other places. Of course, there may be a little sour cream in it, but you can't have everything. The members of this zany group, both masculine and feminine, may be identified by the red, green and gold pin they so prominently display, and also a certain LOOK which seems to indicate that perhaps they have not all their apples present and accounted for. At time of writing, the enrolment in this select group was confined to 17 fortunate souls but there's no telling just what will have happened by the time this is printed. The whole thing may have blown up the chimney after the Twenty-Five Dollars—it may have settled down to be a nice, quiet Thing—it may have doubled the present number of members—it may have halved the present number.

Which just goes to show that it just goes to show.

Hello, Coach!

I thought you were told not to drink while in training.

Why, coach, what makes you think I've been drinking?

I'm not the coach.

We have a sneaking hunch that there are a lot of people who think this column is self-centered, or at least centered around a small group of people. We admit the charge and can only offer in defence the plea that names make news interest and we naturally are more familiar with the names and doings of those whom we know well than of others. We would really welcome any suggestions for bringing the page back to life, so if you know of any person whose actions rate the attention of a meander, please let us know and we will do our best to deliver the goods all wrapped up in nice bright cellophane.

Now that the time has come around to speak of the World Series, and Will the Giants Win, and such stuff, we would like to stick our neck out by nominating Julius (The Mad) O'Connor to hold down the pitching duties for the aforementioned Giants. We've seen an example of O'Connor's unerring accuracy and we feel he would be a godsend to any club. Of course, it wasn't a baseball! O'Connor was throwing at the time, but still!

We had a swell joke for this space, but—well, you know how it is. Come on over to the print shop and we'll let you in on it.

I see a couple of Indian chiefs got knocked off in a fight with bows and arrows. Who said the West wasn't wild?

He drank the nectar from her lips
As by the kitchen fire they sat,
And wondered if any other guy
Had ever drunk from a mug like
that.

Council Plans

(Continued from Page One)

lar" (auditorium to you) in good shape for dancing.

The price is 50c a ticket, as usual. The date, Feb. 10th. Get your date and plan for a big time. Remember, all proceeds go to the support of school teams and clubs. So all you jitterbugs, be on deck for a session of truckin' on down. The new Council is giving you the better orchestra, and good floor you asked for, so support them.

Acatec Subscriptions

(Continued from Page One)

to university or out into the world on their own.

Then, if you like to write short stories or poems, or take candid camera shots, you can enter the Acatec contest and you can show the folks at home and all your friends how you helped to print that book.

Don't think for a minute that you're taking a chance on a poor commodity when you decide to buy an Acatec. Ask any of your friends who were here last year and they'll tell you what a good Year Book we had last year.

This little talk is not for those students who were here last year. We know that you have supported the subscriptions 100 percent; but it's for you students who were not here last year and who do not know how much you need an Acatec to make your school life more interesting and pleasurable. Remember, you can't go wrong on an Acatec. Subscribe now!

That plural is an awful nuisance
I think we had better drop it.

His best friends wouldn't tell
him, so he flunked his exam.
